Don't fail to hear Dr. Foy's lecture Friday

If you want a good time, go to Heywood's Grove on the Fourth.

If you wish to be entertained and instructed, go to hear Dr. Foy's lecture Friday night. There are several legal ads. on our eighth page, and they may prove interesting to

last week, and is now in its allotted place in the belfry. Ironton may be called properly the City of Bells-and you may spell it with an "e" if you wish.

Mr. A. V. Hamilton, Principal of the Pilot Knob public school last year, has been elected superintendent of schools at Cape Girardeau. Our neighbors of the Cape will have no cause to regret their choice.

A Grand Ball will be given at Graniteville on the night of the Fourth of July, to which a general invitation is hereby extended. Refreshments, such as ice-cream, cake, lemonade, etc., will be provided, and all necessary steps taken to make the affair a success.

Mr. W. W. Nall, deputy county clerk of Iron county and assistant dictator of the high, or else a railing of the same height Grand K. of H. of Missouri, visited the lodge of Knights of Honor at this place Monday and lectured them in the work of the order. He returned to the Bluff Tuesday morning. -Dexter Enterprise-Messenger.

Rev. B. F. Thomas and Prof. J. B. Scott went fishing last Friday morning, to the Iron Mountain dam, and returned in the evening with a catch of fourteen bass and one perch. Twenty pounds of fish! Prof. S. says he will always, hereafter, take a preacher with him on his fishing excursions.

Squire S. E. McNeely, of Big Creek, last Monday brought to our office five ears of corn, with the ends fully covered with grains, grown as on the body of the ear. Our Caledonia friend, Mr. Stephens, is, we fear, in for that year's subscription. Mr. McNeely also gave us an ear of corn with thirty rows | the Post Office at Ironton, Mo., June 30th, -a rather unusual growth, so the farmers | 1885:

The ladies of the Presbyterian Church return their thanks to the many kind friends who contributed to the success of the entertainment last Thursday evening. The weather was not so propitious as it might have been; nevertheless the receipts were liberal, and encouraging expressions not a few. The net receipts, we believe, amounted to between \$25 and \$30.

Capt. W. H. Byers left for Chicago Sunday morning, and may not return for a week orten days. Mrs. B., who has been there for a week past, is suffering with a cancer in the breast, and the physicians say it will have to be removed by an operation at an early day, as her life is endangered. We trust the operation may be successful, and it Ill if the best skill can accomplish it.

The various Sunday Schools of the Valley will have a picnic at Judge Russell's grove on the 4th. It will be a Basket Picuic-and finer the picnic-and we know it will be a success. The children will be served with lemonade, free, and we hear it whispered there will be no speeches. The exercises closed from the furnace blowing into a pile of shavings. The factory was running at the time, but strange to say, the fire was under such headway when discovered that there was no possible chance of putting it out or saving the machinery, consequently the whole thing was a total loss; no insurance.

Mrs. H. M. Heywood and children have returned to Iron county, after an absence of over a year. Mrs. H. has regained her right mind: at least, there are no traces of insanity left, if there ever was any, as her husband supposed. They are all in excellent health. Miss Alice has grown very much, and looks as her mother did twenty years ago when she kept the lumber yard on Main street for her husband. They have good words for Howell county, its health and its thrift, and have secured a good home there for themselves.

Rev. Dr. Foy will be in Ironton next Sunday, July 5th. The morning service will begin promptly at half past ten o'clock. Subject of sermon, "Reasons for Believing in a Future Life." In the afternoon a special discourse to children at 3:30. Theme: "Manliness." In the evening at 8 o'clock Dr. Foy will read the brief evening service, and discourse upon "The Life Everlasting." On Monday evening, July 6th, the Doctor will deliver a "Charge to Church Members of all Persuasions," to which they are cordially invited. On the next evening, (Tuesday, July 7th), the Doctor will deliver one of a practical series of lectures on "Home Life."

Newt. McCallum, who lives on his father's farm, about ten miles southeast from Ironton, had a little experience last Friday which will last him all his life. He had driven to mill and was returning with a wagon load of flour, when he met a woman on the road, who advised him not to attempt to cross the stream he was approaching (Wichita Creek). marck this week. On his outward trip this creek was not beyond fording, but heavy showers during the day had made it "swimming full." When he arrived at the bank, he concluded he could get across and in he drove without hesitation. But he got more than he had bargained for, for the rushing waters threw the horses off their feet, overturned the on and contents lost. The loss is pretty bad, our Declaration of independence. But we think the owner of the team may but we think the owner of the team may celebrate in such a way as will do honor to place just what he wants. The Pienic at Heywood's Grove is to be the affair of the Fourth in this section. Ample accommodations are being made for the amusement and comfort of the crowd that will assemble, if the weather prove favorable. Jno. Blemel, Esq., has taken charge of the refreshment part of the proceedings, and all may rest assured it will be well attended to. Appropriate addresses will be delivered by the Hon. Mr. Eshbaugh, State Grange Lecturer, and J. B. Walker, Esq., of Ironton. The Ironton Cornet Band will furnish the music for the occasion. A platform has been erected, and a good orchestra will be on hand. A restaurant and refreshment stand will be on the ground, furnished with all the good things that are needed for the inner man.

The July St. Louis Magazine contains aricles-with portraits-on Victor Hugo and Mozart; poems by Wm. H. Bushnell the veteran author, Minnie |C. Ballard, Lizette W. Reese, Lilla N. Cushman, Mrs. Monfort of the Pittsburg Democrat, Hattle Whitney and several other; an interesting Mexican story by Enrique Parmer; the "Literary Topics" department has articles on John G. Saxe, Charles Egbert Craddock with portrait, and Geo. M. Grummond, by Mattie E. Sperbeck and A. N. De Menil; and the "Light Moods" department has contributions from Luther G. St., St. Louis, Me. The iron bridge across the creek between Ironton and Arcadia is completed, and the county and its people have just cause to be proud of it. The winds may blow, and the rains may fall, but it will not be shaken. But there is yet something to be done. The approaches are of gravel, held in place by stone walls. Where the bridge ends and these begin, to the west, on both sides of the creek, and the east side, on the south side of the creek, there is a jump off of ten feet, decreasing in depth as the bridge is left behind. The rockwork should be raised along these places, into a parapet of at least two feet should be placed thereupon. There is danger in the night of persons driving or riding off these places, and of scary horses shying off. And if such did happen, the county would be responsible for damages to man and beast. Prevention is better than cure. Let the "Conscript Father's" of our county court look after this.

There are some business men on Main street, who, when times are dull, drop in on one another and while the time away with loud talking, which no doubt is very pleasant to themselves, but horribly disagreeable to some others. Others don't care to listen to village talk.

The Rev. Dr. Foy will deliver a lecture on ducation at the courthouse, Friday night of this week. Let there be a general turnout. Dr. Foy is a very able lecturer, and, besides being very instructive, he is equally entertaining. Dr. Foy delivers this lecture in compliance with a request from the Normal Institute now in session at the public school

Ursuline Academy. The exhibition at the College on last Thursday was the Eighth Annual Commencement of the Ursuline Academy, and was attended by a large concourse of people. The programme varied somewhat from the MAGAZINE Co., Publishers, 213 N. Eighth usual course of such exercises, in that it was not confined to the mere literary routine of usual exhibitions, but gave an opportunity to the friends of the pupils and the institution to judge of the musical attainments of the students and the progress made by them results were most gratifying. After the usual Entrance March on the piano, performed by Misses May McFadden, Mamie Dinning, Lou Dinning and Kitty White, "Ave Marie," Trio, by the Misses Rosie Feldmann and Mamie and Lou Dinning, was sung with careful training. This was followed by the chief feature of the Musical Department. being a comic opera in three acts, wherein the same young ladies and Miss May Mc-Fadden, assisted by nearly a score of beautiful younger pupils, took part, and acquitted gives the salient features of the play:

"THE BELLS OF CORNEVILLE." Henri, Marquis of Corneville, who has been since childhood, owing to civil war, an exile, returns to his ancestral home on the occa-sion of the great annual fair which is being celebrated in the village that receives its name from his chateau. It is one of the old-fashioned Norman villages of the seventeenth

century. The First Act represents an assemblage of village gossips discussing scandal and small talk. Serpolette, a cross between Fanchon your disputations, gentlemen. Give us a rest.

Gaspard, an old miser, wishes to marry his niece, Germaine, to the principal magistrate of the district, the Baili. This arrangement does not suit Germaine, nor a arrangement does not suit Germaine, nor a grenicheux. young fisherman, named Jean Grenicheux, who pretends that he saved her life from drowning on a certain occasion. To escape from the power of old Gaspard, Germaine takes advantage of the privileges of the fair, and becomes the servant of the Marquis. Her example is followed by Grenicheux and Serpolette.
The Second Act of the Bells of Corneville

is taken up with the supernatural visitors who have made the Castle of Corneville so long an object of dread. Henri determines to find out the real character of these ghostly appearances, and discovers that it is all the work of the old miser, who has concealed his treasures in the chateau. The discovery drives Gaspard crazy, especially when he hears the bells of the chateau ringing for the first time since the flight of the old Marquis. The Third Act represents the grand fete given in honor of the return of Henri to his ancestral home; Serpolette arrives as a Marchioness, as some papers, found in the cha-teau, indicate that she is the lost heiress. The miser, however, recovers his reason, and shows that Germaine is the true Marchion-ess. A duet between her and Henri, results in the reconciliation of all the parties, bring

Between the acts, and at intervals, Misses Rosa Buder and Maggie Walsh, who graduated on the occasion, delivered essays which were able compositions, replete with fine sentiments and elevated thoughts, showing that the moral and literary training of their pupils receives careful attention on the part

It is exceedingly full of enjoyment, if you will only stop and gather up the sunbeams. A spirit of joyousness is the prevalent law of being, and is a natural characteristic of everyone. In the little child we find this spirit left free and joy abounds. As years advance it is more rarely met, yet in old age we often catch a gleam of instinctive happiness. Obwill give emotions of joy.
